Do we share your personal data with third parties?

For the execution of the (lease) agreement with you or your employer, we may use the services of third parties or it may be necessary to provide your personal data to third parties. Examples are companies affiliated with ALD Automotive, fuel card providers, car dealers, garages, insurers, claims handlers or (IT) service providers. To enable you to electronically sign your application and the contract, your data will be exchanged with our processor Evidos.

In certain cases (when necessary and relevant for the purposes described above or when we are legally obliged to do so) we may provide your personal data to financial institutions, (external) advisors, (potential) buyers (e.g. in connection with transactions, (re-)financings, reorganisations, mergers and/or demergers) or to competent supervisors and authorities.

The personal data that we provide to (potential) buyers in the context of (re)financing are in principle limited to a description of your vehicle (brand, model, version, classification, lease term and book value) and your contract and debtor number. These are pseudonymised data (i.e. data from which the receiving party cannot directly deduce who you are). If we provide more personal data to the receiving party (such as your name, contact or payment details) because it is necessary for the execution of your lease agreement(s), you will always be informed separately first.

Third parties and companies affiliated with us that process your personal data under our responsibility do so exclusively for purposes and under conditions that we have agreed with them. We record these agreements in processing agreements. You can receive a list of categories of our service providers on request.

Could your personal data be processed outside the EEA?

It is possible that your personal data will be processed outside of the European Economic Area (hereinafter: "EEA"). If this is the case, we will ensure that an adequate level of protection of your personal data is guaranteed and that the transfer only takes place in accordance with the requirements of the GDPR.

If you would like more information about the possible transfer of your personal data to countries outside the EEA, the appropriate safeguards we have put in place or to receive a copy of the appropriate safeguards, please contact us via fg-nederland@aldautomotive.com.

How long do we keep your personal data?

The collected personal data will be kept for as long as necessary to pursue the indicated purposes and - where applicable - as long as necessary to comply with applicable legal obligations. If the (lease) agreement with you ends, we will retain your personal data for the statutory retention period applicable to us. As a rule, this is 7 years after the lease agreement has ended. If no statutory retention period applies, we will keep your personal data for a maximum of 5 years after the lease agreement is terminated (in connection with limitation periods and the execution of post-contractual agreements). We may keep your personal data longer if this is necessary to enforce or defend our rights. For more information about the specific storage periods we apply to your personal data, please contact us via the contact details above.
